## FOOD RESOURCES

### Emergency Gift Cards

Support supplied directly to district families by Salt Lake Education Foundation is limited to emergency gift cards. Through partnerships and relationships with other service providers, we have the following options available.

### Utah Food Bank

Utah Food Bank serves our district with mobile food pantry visits to designated schools and food pantries at other schools. If your school is interested in adding mobile pantry visits or a food pantry, contact [Liz Young](#).

## CLOTHING RESOURCES

The foundation does not accept used clothing donations nor do we have adequate storage space to house new items. Some schools have their own programs to meet clothing needs. We have some partnerships that allow us to reach more students effectively.

## VISION RESOURCES

The foundation, in connection with Student Services and district nurses, provides a number of options for students in need of glasses. The best option is to provide qualifying families with a Vision Service Plan (VSP) voucher. Families who do not qualify can use school-based vision clinics supported by our partnership with Friends for Sight.

### Health Services Secretary

Contact: [Jade Hook](#)  
Email: 801.578.8684  
Fax: 801.578.2084

### Vision Screening

Students are screened by the district nurses and supporting volunteers. The parents/guardians of students who fail the vision screenings will be notified in writing. Students who miss school screenings may request an individual screening through the school nurse or Health Services secretary.

### Notification Instructions

- Families with Medicaid: call 1.866.608.9422 or 801.526.9422
- Families with other health insurance: contact their insurance provider
- Families with no insurance: contact school counselor or family support advocate

### Vision Exam Vouchers

Counselors may help students who qualify for VSP vouchers apply through the Health Services secretary to get a voucher to see a doctor for an exam and glasses.

### VSP Qualifications

- Family income is no more than 200% of federal poverty level
- Child is not enrolled in Medicaid or other vision insurance
- Child is 19 years old or younger and has not graduated from high school
- Child or parent is a U.S. citizen or legal immigrant with a social security number
- Child has not used this program during the past 12 months

### Vision Exam Appointments

Friends for Sight Vision Clinics  
(at the Glendale and Liberty Community Learning Centers)

For students who do **not** qualify for a VSP voucher, request a Friends for Sight permission form from Health Services secretary. To be placed on the schedule, the parent/guardian must complete an application and permission form.

Once both completed, forms are returned to the Health Services secretary. Counselors will be informed of the appointment time. **Exams are by appointment only; we do not offer walk-in exam services.**

### Repair/Replacement of Glasses

#### Qualifying students may only receive new glasses if:

- The district has access to the student's most recent prescription
- It has been six months since the district provided the student with free glasses

# Community Resources

## Glasses Replacement Procedures:

- A parent or guardian must complete the application before arriving at the screening clinic (forms can be requested from the Health Services secretary)
- The student must come to one of the Friends for Sight clinics during clinic or screening times with their prescription and try on new frames
- Call Friends for Sight prior to arriving to ensure a screener is available to assist with new glasses (801.524.2020)
- Minor repairs can also be attempted at these times if students bring their broken glasses to the clinic

**Vision prescriptions are only valid for one year.**

## DENTAL RESOURCES

Through partnerships with the University of Utah School of Dentistry and the Utah Department of Health Family Dental Plan, the district is able to provide many schools with dental sealants, fluoride washes and oral health education. These services help identify students in need of additional care. There are a variety of different options to help students access this care. Contact [Liz Young](#) for assistance in choosing the best option for each student.
